**PETITION FOR CORRECTION OF INVENTORSHIP**  
**PURSUANT TO 37 C.F.R. §1.48**

**MAIL STOP AMENDMENT**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicants hereby petition to correct the inventorship of the above-identified application by the addition of Mr. Takao Ogawa.

It was not known that Mr. Ogawa was in fact a co-inventor of the invention claimed in the present application until the Examiner in charge of this case issued an Office Action on October 3, 2005. In this Office Action, the Examiner rejected claim 1 on the basis of U.S. Published Patent Application No. 2003/0128976A1 by pointing out that:

“Ichinose et al. teaches in Figure 1 a focal plane shutter comprising: a shutter blade (1) capable of blocking a light; a blade dowel (2) attached to the shutter blade; a blade arm (5) slideably engaged with the blade dowel to open or close the shutter blade; wherein a surface hardness of the blade dowel is in the range of Hb 450 to 1000, which can be higher than the range of the blade arm of Hb 300 to 600; the dowel being plated with nickel, chromium, palladium or rhodium (p. 1, para. [0010]); a material of the blade dowel is Sk4 material and a material of the blade arm is SK4 material, ...”

Upon receipt of this Office Action Messrs Ichinose and Okazaki, the initially-designated inventors of this application, reviewed the ‘976 published patent application and noted that

01 FC:1464 130.00 DA  
W707941.1

Mr. Ogawa was responsible for at least some of the information relied upon in paragraph [0010] of the '976 published patent used by the Examiner in rejecting claim 1, as well as at least one of the limitations in claim 1.

As Mr. Ogawa is responsible for at least one of the claim limitations of claim 1, the addition of Mr. Takao Ogawa as a co-inventor to this application is appropriate, and is hereby respectfully requested. As is further established by the attached Declarations, the omission of Mr. Takao Ogawa as an inventor in the above-identified application occurred without deceptive intention on the part of him and each of the other co-inventors of this application.

Further accompanying this Petition are (1) Declarations by all of the actual inventors verifying the above statements of fact; (2) a Declaration by all of the actual inventors of this application as required under 37 C.F.R. §1.63; (3) a form authorizing with payment of the processing fee set forth in §1.17(i), and (4) the written consent of the Assignee of this application, Nidec Copal Corporation.

Respectfully submitted,
